

Letter of Recommendation
Crestline Construction

To whom it may concern:

My name is Michael Kukes; I am a retired Maintenance Superintendent with over 37 years with WSDOT. For the last 3 years I have been involved with the wind industry as a Civil Manager on several major wind projects working with many different contractors.

It has been my pleasure to work with Crestline Construction this past year on Rattlesnake Road Wind in Arlington Or. They have been a breath of fresh air to be associated with. I have never worked with a contractor and his crews who have done such a nice job from the start to the finish. They have gone out of their way to produce an extremely clean and useful project.

During my daily inspections if I happened to identify a concern, before I can contact them, they have already addressed the issue. They are far and above their game. They come to the table with the equipment and personnel to do the job right the first time.

They are willing to find solutions to any obstacles that may arise during construction and during the final clean-up and remediation of the sites they work on. Their goal is to do whatever it takes to complete a job in a timely and professional manner. All of the personnel I have been involved with are true professionals, top to bottom.

I can truly say that during my professional career, I have rarely met and worked with a company that is a daily pleasure to be associated with. I know they come prepared and ready each and every day to do a professional job for the customer.

In closing, if you are looking for a professional contractor to work with, you would be hard pressed to find one that goes the extra yard each day like Crestline Construction.

Please feel free to contact me if you would like further information.

Michael Kukes:

A handwritten signature in black ink that reads "Michael Kukes".

Civil Manager, Horizon Wind Inc.

Arlington, Oregon

Rattlesnake Road Wind & Wheat Field Wind Projects.
